Does Finland have solar power?

There is plenty of solar energy available in Finland, and solar power is predicted to be one of the lowest-cost electricity production methods in the coming years.

Where should I buy solar panels?

We recommend acquiring your panels from a reliable company that is sure to remain in business for the entire lifecycle of your solar power system. A good salesperson will answer any use-phase questions you may have, handle your warranty issues, if necessary, and enable you to expand your system and add new products to it.

How can I find out how much solar energy I can produce?

You can use Helen's solar power calculator to find out how much solar energy you could produce by mounting panels on your roof. The calculator takes into account any shade hitting your roof, such as other buildings and trees. For a detailed estimate of the best solar panel solution for you, please order a survey.
