There is no 600 watt solar panel available. You have to combine smaller PV modules to get to 600 watts. There are solar panel kits that consist of 2 x 300W solar panels, giving you 600 watts. The best place to buy is

online since it is the most convenient. If you are new to solar or just want the easiest setup, a 600W solar panel kit is the way ...

So on Amazon, I found a solar generator that is 600 watts and peaks at 1200 watts and a spaceheater at 500 watts. My thought process is 1200 watt peak and adding 500 watts to the spaceheater making it 1000 watts, it should be fine. However I understand that the solar generator is peaking pass its original 600 watts, I am not sure if what I'm ...
