The first electricity from Algeria's 1-GW Solar 1,000 scheme is expected to be produced at the end of 2023, the director-general of Shaems, the state-owned company overseeing the large-scale project, said on Sunday.

The research finds that, whilst Algeria has strong solar potential, there are several substantial financial, regulatory, technical, administrative, and political roadblocks to harnessing it. Therefore, the report puts forward recommendations for policy makers, investors, development finance institutions and Algerian firms involved in renewable ...
