Bou Craa, Western Sahara. Phosphate deposits are one of Western Sahara's few natural resources. At the Bou Craa phosphate mine, 100 kilometers (about 60 miles) from the coastal city of El Aaiún, abundant, pure phosphate deposits lie near the surface. Image of the Day Land Human Presence

At the end of 2017, land in Western Sahara to the east of the Berm contained a total of 27 areas confirmed and suspected to contain anti-personnel and anti-vehicle mine contamination covering a total of more than 218km², as set out in Table 1.9 This is close to 34km² less than

Ampion acts as a broker for the solar farms, enrolling new subscribers and providing customer service. How is the electricity from the solar farm measured? Electricity is measured in Watts. Because solar farms are producing large amounts of electricity, it is typically measured in megawatts (MW). The output of a solar farm is measured and ...

Ampion connects people in Maine with Community Solar farms to help lower their energy costs and protect the environment. Community Solar is one of the easiest ways to support clean energy and save money while you're doing it!

Maine has created a dual billing program, so you'll receive two bills each month: one from your utility, and one from Ampion. Versant customers receive a kilowatt hour (kWh) reduction and CMP customers receive a credit on the monthly utility bill, based on their share of the energy produced by the solar farm.

Governor Mills officially named the week of September 20-24 "Clean Energy Week" in Maine to show support for clean energy development. In recognition of this announcement, News Center Maine featured a segment on ...
