ARC ENERGY is dedicated to addressing the energy challenge of climate, affordability, and security. We are exploring innovative solutions in oil and gas, fuels, and low-carbon technologies, investing in large-scale solar and wind projects, developing advanced battery storage systems, and supporting research in hydrogen energy to ensure a sustainable and resilient energy future.

With the aim to attract investors and drive growth, Vietnam launched a development strategy for the renewable energy sector in 2017. The plan, including a lucrative feed-in tariff (FIT), regulated the purchasing price of energy produced from the renewable energy sector, making it a highly profitable business. However, the incentives expired on the 30th of
