To be eligible for STCs, your system must be installed by a Solar Accreditation Australia accredited installer. The solar panels and inverter must be on the lists of Clean Energy Council approved modules and inverters. The value of STCs ...

The infamous Bloomberg Tier 1 ranking is commonly referred to as a bellwether in the solar industry for identifying the better solar panel brands. It is important to note that this ranking only looks at each manufacturer's bankability. This is important because the business will need to be around for 25-30 years if you expect them to honour their lengthy warranty terms.

We've been leading the solar industry for over 15 years, installing 1.8 million solar panels on roofs nationwide. Today, we're helping more Aussies on their way to energy independence through our preferred partner network of trusted solar installers.

The infamous Bloomberg Tier 1 ranking is commonly referred to as a bellwether in the solar industry for identifying the better solar panel brands. It is important to note that this ranking only looks at each manufacturer's bankability. This is ...

Back in 2009, when SolarQuotes kicked off, solar panels cost a bomb: about 20 times more than what you'd pay today. This massive price drop means you can fill your roof with solar without stressing too much about the cost. You don't even need to stress about having your panels perfectly angled or facing the ideal direction. They're such good value now that even if ...
