The Isle of Man produces more solar than you would think, even on an overcast day, we are still reaping the rewards of free electricity! A small solar array of 8 panels can produce 3630kwhrs of electricity and this equates to an annual cost saving of £1034.55.

Stephen Snowdon, Planning & Development Manager at Peel Cubico Renewables said: "Our vision for this solar farm supports both the Isle of Man's response to climate change and the government's ambitions for renewable energy projects to help secure a bright economic future for the island. We also recognise the cost-of-living crisis facing ...

We install JA Solar and Sun Power Photovoltaic systems, on-roof, in-roof or ground mounted. We always recommend to use Solar Edge optimisers and inverters to boost output. Solar panel electricity systems, also known as photovoltaics (PV), ...

Nexiom Limited an Isle of Man company based in Laxey. We offer a room by room Heatloss Survey for your property. Our services are primarily Electrical contractors undertaking, Renewable Energy, Solar Energy, Electric Boilers, Heat Pumps and ...

Proposals for the very first utility-scale solar farm on the Isle of Man have been released by designer Peel Cubico Renewables (PCR). The 26MW Billown Solar Farm in Malew, near Castletown, would certainly produce enough power to fulfill more than 5% of the Isle of Man's power demand, when functional in 2024.

Manx Solar Electrical Ltd is a business dedicated to helping the Island reduce its carbon footprint through renewable energy solutions. From solar panels to heat pumps and battery storage, Manx Solar Electrical is driving innovation in renewable technology.

At Nexiom Ltd, we are experts in the installation of renewable energy on the Isle of Man, including solar photovoltaic panels (Solar PV), which can be used to power your home, leading to savings on your electricity bills and reducing your carbon footprint.
