You can either opt for an off-grid solar system, or you can get a solar generator as a battery backup. It will store all the converted solar energy in solar batteries, like Jackery Solar Generator 2000 Pro that you can use to use it to power almost 90% of home appliances.

Advantages of solar backup systems. Security of supply - A solar backup system ensures a secure energy supply even in the event of an unstable power supply or grid failure.; Stable energy costs - With a photovoltaic system, there are no running costs, which often increase constantly. They therefore guarantee stable costs over the entire service life of the system.

Solar Generators as Back-Up ... The efficiency of any solar system depends on a variety of factors, but the main things to consider are the panel's efficiency and the battery's capacity. Panel efficiency is measured in Wh or Watts per hour and lets you know how much energy your panels can produce in a given hour. So for example, your fridge ...
