When deciding where to place the solar panels, the EQUANS teams had to take into account the shade created by the trees and hedges on the site. The owner's wishes to safeguard the view from his home, as well as ease of maintenance, were also important points of attention. The solar panels have therefore been installed in eight-row groups on a ...

Solar & Storage As global demand sets ever more ambitious renewable energy supply targets, growing challenges have to be met in energy storage, grid-balancing and frequency response. We are at the forefront of the expanding battery storage market, a key enabler for smart grids.

Solkompaniet and Bouygues Energies & Services, a subsidiary of Equans, entered in a collaboration in August 2023 through a Joint Venture to build Sweden's largest solar farm together. Work has begun in early October 2023, the solar farm is expected to be connected to the electricity grid in spring 2025 for full commercial operation later in 2025.

Equans Solar & Storage propose des solutions solaires et de stockage à grande échelle,
