Bouvet Island is an uninhabited volcanic island in the South Atlantic that belongs politically to Norway. The island is 1700 kilometers away from Antarctica, nine kilometers long and almost completely covered by glaciers. The climate here is harsh, leaving only fur seals, elephant seals and penguins a chance of survival. Bouvet Island takes its name from its discoverer, the ...

Google satellite map provides more details than Maphill's own maps of Bouvet Island can offer. We call this map satellite, however more correct term would be the aerial, as the maps are primarily based on aerial photography taken by plain airplanes.. These planes fly with specially equipped cameras and take vertical photos of the landscape.

The island lies 1,700 km (1,100 mi) north of the Princess Astrid Coast of Queen Maud Land, Antarctica, 1,870 km (1,160 mi) east of the South Sandwich Islands, 1,845 km (1,146 mi) south of Gough Island, and 2,520 km (1,570 mi) south-southwest of the coast of South Africa. It has an area of 49 km<sup>2</sup> (19 sq mi), 93 percent of which is covered by a glacier. The centre of the island ...

Book your Bouvet Island self catering accommodation online. Explore a large selection of holiday homes, including houses, apartments & more: the perfect holiday lettings with reviews for short & long stays in Bouvet Island, . Ideal for families, groups & couples. Bouvet Island offers the best alternatives to hotels.

The closest lands to Bouvet are more than 1000 miles away. Queen Maud Land of Antarctica is just over 1,000 miles and Cape Town is about 1600 miles away. Therefore living off of this island and depending on shipments could be quite the challenge. Bouvet Island is a frozen inactive volcano. The majority of the island is covered by a glacier!

For more information, please visit <https://> Appendix A - How to locate your ESS Home Battery's Serial Number For ESS Home Battery models RESU7H and RESU10H: The serial number label is located behind the access door of the ESS Home Battery. Bouvet Island is a Norwegian uninhabited protected nature reserve. As a subantarctic volcanic island, it is situated in the South Atlantic Ocean at the southern end of the Mid-Atlantic Ridge, making it the world's most remote island. It is not part of the southern region covered by the Antarctic Treaty System. The harsh climate and ice-bound terrain limits non-animal life to fungi ...
