To ensure reliability, purchase Hyundai part # 37501-G7601 BATTERY SYSTEM ASSY. When it comes to top-class quality and functionality, original equipment manufacturer parts are without doubt the only choice. They undergo strict quality checks and are built to Hyundai's factory specifications for easy installation.

Adhesives ranging from single part UV curable adhesive, RTV, multi-part structural, or thermal adhesives may be used for battery assembly. High efficiency, fully automatic dispensing systems can be used, powered by positive displacement, servo powered, precision dispensing devices mounted to robotic motion systems.

By 2035, the European Union will ban the sales of gas and diesel cars. Electric vehicles (EVs) are the future of automotive. As you know, currently, EVs' power source is the lithium-ion battery pack. The cell contact system (CCS) module, made from a flexible printed circuit board assembly (PCBA) module, is a necessary component of the lithium battery system.

To ensure reliability, purchase Hyundai part # 37501-GI151-RM REMAN BATTERY SYSTEM ASSY. When it comes to top-class quality and functionality, original equipment manufacturer parts are without doubt the only choice. They undergo strict quality checks and are built to Hyundai's factory specifications for easy installation.
