

Who is Beon Energy Solutions?

Victorian-based Beon Energy Solutions announced it has been awarded the EPC contract for the Quorn Park project that is to combine an 80 MW solar farm, a 20 MW / 40 MWh battery energy storage system, and an interconnection into a 132 kV network.

What is EIT InnoEnergy supported Beon Energy?

EIT InnoEnergy supported BeOn Energy aims to democratise access to renewable energy and encourage people to install solar energy on their property, by producing solar panels that can be safely plugged into a wall socket. Electrical engineer Rui Beon created BeOn Energy in 2015.

Is Beon a viable technology in Europe?

While a lot of initial work has been done in Portugal and the Iberian Peninsula, Beon believes that the cost-effectiveness, flexibility and durability of the technology renders it something that can be viable throughout Europe and further afield. Want to read more about BeOn?
