*Prices reflect the federal tax credit but don't include solar panels, which you'll need to keep your battery charged during an outage. The difference between whole-home and partial-home battery backup systems is pretty self-explanatory: Whole-home battery backup systems can power your entire home in the event of an outage, whereas partial-home setups ...

1. Duracell Power Center Max Hybrid: Provides the most continuous power, scalable, relatively affordable: 2. HomeGrid Stack'd Series: The most scalable, very efficient, high power output

The winter will obviously be different - I won't have enough solar to run the house or charge the batteries much. I guess in the winter I can get maybe 1/2 a days electricity from charged battery/solar (if I can charge the battery overnight sensibly) so would need to buy 6 to 8kWhr per day. In the height of summer I wouldn't need to buy ...
