

What does Circor do?

CIRCOR delivers pump & valve systems and custom engineering & design services designed to address the most mission-critical and severe-service applications. On land and sea, in air and space, and under the ocean's surface, when failure is not an option, the most trusted name in critical fluid handling is CIRCOR. If it is flow control, it's here.

Why should oil & gas customers choose Circor?

The escalating number of environmental regulations and significant power needs in refineries. Customers turn to CIRCOR for fluid-handling solutions that transfer critical fluids without interruption and keep equipment running at peak efficiency. Because failure is not an option in oil & gas.

What brands do Circor use?

In fact, CIRCOR's trusted brands - Allweiler®;, Imo®;, Houttuin(TM), Tapco Enpro, Delta Valve, Tushaco®;, RTK®;, Schroedahl®;, Warren®; and Zenith®; - help move more than 4.5 million barrels of crude every day, with our unique ability to deliver:

To meet the many challenges in our strategic markets, CIRCOR brings customers a portfolio of pumping products and fluid handling solutions from the world's leading brands, along with industry knowledge and deep expertise. ... technology is the handling of heat transfer fluid for capturing energy from the sun and converting it to mechanical ...

In a Production setting, Multiphase Systems add hydraulic energy to the unprocessed production stream in order to generate higher flow rates over longer distances making greater pressure drops and longer tie-backs possible before separation. The CIRCOR multiphase system has been modularized to provide you with adaptable features that meet ...

New technology - smart technology - is available that enables vessel and fleet operators to achieve substantial energy savings by running pumps more efficiently via a sophisticated control system. Such a system can be applied to both newbuild and retrofit situations. ... CIRCOR factors efficiency gains into their solutions that look beyond ...

CIRCOR Energy, a CIRCOR International, Inc. (NYSE: CIR) company, today announced the relocation of its group headquarters to Houston. The new office is located at 945 Bunker Hill Road, Suite 650 in the Memorial City section of Houston, Texas. "Moving CIRCOR Energy headquarters to Houston brings us closer to many of our global customers, allowing ...

For over 30 years, the U.S Navy has relied on products from CIRCOR's Portland Valve to address its biggest challenges. From isolation valves to advanced smart control valves, we have a variety of valves to meet your

fluid control needs, including: Specialized control valves; Motor-operated valves; MIL Spec butterfly valves and electric ...

US-based Circor Energy is one of the leading designers and manufacturers of highly engineered products and sub-systems. The company caters to numerous industries such as oil and gas, industrial, aerospace, defense, power generation, commercial & institutional facilities, and marine industry segments.

CIRCOR Products, People, Services give you greater control over operational and energy costs and higher levels of fleet and business performance. We call this value to you, Total Savings of Ownership. Roll over the dots below to learn about CIRCOR solutions for Commercial Marine.

A commitment to building green, sustainable vessels that save energy and perform efficiently was at the forefront of China Navigation Company's plans for eight new 31,000 deadweight "S" Class multipurpose vessels scheduled to launch in 2013. ... CIRCOR Pumps Cut Energy Use on Major Canadian Oil Company's Crude Oil Pipeline.

CIRCOR Energy is a market-leading, global provider of integrated flow control solutions in the expanding and evolving oil and gas industries, specializing in highly engineered valves and pipeline products and services. Comprised of best-in-class, historically significant product brands, we consistently satisfy our customers' mission-critical ...

Information coming soon. 21st Americas Energy Summit & Exhibition . April 8-9, 2025. Houston, Texas. REGISTER YOUR INTEREST FOR 2025. EXHIBITION. Back; ... CIRCOR markets its solutions directly and through various channel partners to more than 14,000 customers in approximately 100 countries. The Company has a global presence with approximately ...

About CIRCOR Energy. CIRCOR Energy is a market-leading, global provider of integrated flow control solutions specializing in the manufacture of highly engineered valves, fittings, pipeline products and services, and associated products, for critical and severe service applications in the oil and gas, power generation and process markets. ...

Houttuin, a CIRCOR brand, developed the original pump design that became the blueprint for today's low-pressure, twin-screw positive displacement rotary pumps. These pumps, initially built in 1929 for the Dutch coal industry, solidified our reputation for manufacturing high-quality, energy-efficient and cost-effective industrial pumps.
