Greenhouse gas emissions and energy use data for the period 1 August 2023 to 31 July 2024 Birmingham Metropolitan College | Annual SECR disclosure | Academic year 2023-2024 Base Year for emissions disclosure: 2022-2023 ...

Russia: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
