Solar panel wattage indicates how much power a panel can produce over a certain time. Solar panel output varies widely, ranging from 250 to over 420 watts, with an average cost of 61 to 85 cents per watt. At GoGreenSolar, we offer high-performance solar panels between 335 and 405 watts, ensuring you get enough to power your household needs.

Solar PV panels convert sunlight into direct current (DC) electricity for use in homes, businesses and anywhere electricity is needed. Solar PV panels work closely with solar inverters. Solar PV modules are composed of a number of solar cells wired together on a single panel. A single solar panel can have anywhere from 60, 72 or more solar ...
