

Who is Redeux energy?

About Redeux Energy Redeux Energy is a utility-scale solar and storage development company with expertise in a range of strategies to transform greenfield, mined and industrial lands into renewable power infrastructure that produces new revenue streams and addresses local needs for economic and workforce development.

Who is Redeux backed by?

Redeux is powered by exceptional people and processes. Redeux is backed by Cathexis Holdings- a Houston-based, multi-billion dollar, single-member family office with active investments across industries including real estate, infrastructure, and energy.

Why did FPI buy Redeux Energy?

FPI saw this transaction as a win for both parties because it enabled them to expand their renewable energy portfolio, secure long-term, stable income streams, and provide attractive returns to their shareholders. Working with Redeux Energy was also a positive experience for FPI, as they found the Redeux team to be professional and easy to work with.

Redeux Energy, a utility-scale solar and storage project developer, announced the sale of a hybrid solar and energy storage project to Scout Clean Energy, a renewable energy project developer. The project includes a 200 MWdc solar and 40 MW/160 MWh, four-hour battery energy storage project. The hybrid project will interconnect to a MISO transmission switchyard ...

By Garrett Gill, VP of Land The farming and solar energy industries may appear to be at odds with each other regarding land use - both need large land positions in order to succeed. That said, solar developers and farmers have been working together for decades, forming mutually advantageous partnerships. Recent studies have found that co-locating solar ...
