

Is there a solar farm in Brunei?

Many of you might not know this, but we do have our own solar farm right here in Brunei and it's been in operation since 2010. This B\$20 million solar farm is named 'Tenaga Suria Brunei (TSB)' and is located in Seria. With a nominal capacity of 1.2 kWp, the farm covers an area of about 12,000 sq meters with exactly 9,234 pieces of solar panels!

Are solar panels legal in Brunei?

At the moment, there is no regulatory governing the installation of solar panel in Brunei. Companies follow international standards for solar PV systems that convert solar energy into electrical energy, as well as for all the elements in the entire system.

Is solar energy cheaper in Brunei?

Cabling and trenching works can be very costly due to the installation and maintenance process. Hence, for landscaping and outdoor lightings, solar is the cheaper and more convenient option. How can I maximize solar energy production in Brunei?

How much energy can a solar power system produce in Brunei?

For a 10 kW solar power system and capacity factor of 13% (for Brunei), such system can produce approximately 227,760 kWh of energy over their lifespan (10 x 13% x 24h x 365 days x 20 years). As Brunei uses block electric tariff, electricity tariff of BN\$0.06 per kWh will be used in calculation.
