

Does Engie own BTE renewables?

Engie's portfolio increases by 340 MW in Africa. The French group has joined forces with investment company Meridiam to acquire renewable energy producer BTE Renewables. The Johannesburg, South Africa-based company was previously owned by British investment company Actis.

What is BTE renewables?

Actis set up the renewables platform in 2017 after it acquired the Kipeto wind project in Kenya in its development stage. In 2019, it expanded the platform with the purchase of BioTherm Energy, a South Africa-focused company, and rebranded it as BTE Renewables. BTE aims to develop utility-scale solar and wind projects across the African continent.

Why did BTE buy Engie?

With BTE's acquisition, Engie will benefit from an additional 340MW net of renewable operating assets in South Africa. These include 150MW in wind and 190MW in solar. The acquisition also includes a portfolio of more than 3GW in advanced development pipelines and projects, and a workforce of 80 professionals.

What does BTE do?

BTE aims to develop utility-scale solar and wind projects across the African continent. The company has a portfolio of six operating projects totalling nearly 500MW, five in South Africa and one in Kenya. The transaction involves a transfer of the Kenyan assets from Engie to Meridiam upon completion in the fourth quarter of 2023.
