

The project is the first utility-scale Battery Energy Storage System in Bulgaria as well as one of the first of such scale in Eastern Europe. The 25MW/55 MWh BESS supports a 33 MWp PV plant equipped with a photovoltaic tracker mounting system. Solarpro Technology is providing turnkey EPC services. The project features 16 energy storage ...

The Ministry of Energy of Bulgaria has received 151 project proposals worth nearly BGN 5 billion (\$2.7 billion), more than four times the available funding. ... A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and ...

The Ministry of Energy in Bulgaria has launched 2 separate calls to build new renewable energy capacity and energy storage facilities in the country with more than BGN 535 million (\$298 million) budget. The BG-RRP-4.032 tender will support new solar and/or wind power projects with co-located energy storage facilities.

October 18, 2023: Bulgaria has launched a public consultation process into government grant aid plans to support an expansion of renewables and BESS projects across the country, the energy ministry has told Energy Storage Journal.. The government intends to call for tenders and offer financial support to develop 570MW of wind and solar generating capacity, plus 150MW of co ...

A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided by Chinese firms Hithium and Kehua. The project is co ...

Image: RenalfaVienna-based developer Renalfa IPP has started commercial operation at its 25 MW/55 MWh battery energy storage system (BESS) located in the city of Razlog, southwestern Bulgaria.The system, which is connected to the transmission network and ... 55 MWh Battery Storage System Goes Live in Bulgaria 18 Jun 2024 by pv-magazine Image ...

Bulgaria on Wednesday launched a long-delayed tender for at least 3,000 MWh of new energy storage capacity as part of its efforts to increase the share of renewable energy sources, particularly wind and solar, in the country's energy mix.

A total of 249 projects focused on renewable electricity production and energy storage, valued at nearly 268 million euros will be funded through Bulgaria's National Recovery and Resilience Plan (NPVU). CEENERGYNEWS PRO. Search. Search. CEENERGYNEWS. Subscribe. Oil & Gas. The Vertical Gas Corridor: a key to Europe's energy security, says ...

Bulgaria and Romania grant Recovery and Resilience funding to gigawatts of energy storage-Vilion (Shenzhen) New Energy Technology Co., Ltd.-Bulgaria supports 3.1GW of renewables and 1.1GW of storage The Ministry of Energy revealed the results last week (2 November) for the EU-backed tender, which opened in August and will provide financial ...

Lucid Energy Group has received EPA approval to capture and store CO2 from its Red Hills gas processing complex in Lea County, New Mexico. The plan, following subsequent approval by the Internal Revenue Service, will provide section 45Q tax credits for the sequestration and permanent storage of CO2 in Lucid's existing and permitted disposal ...

Projects ranging from 200 kW to 2 MW received 107.5 million leva, while larger projects above 2 MW received 427.5 million leva. The first group had a contracted power generation capacity of 435 MW and energy storage capacity of 176 MW, while the second group had a power generation capacity of 2.66 GW and energy storage capacity of 1 GW.

In our latest white paper, we dive the current state of the Bulgarian Power market and the potential of energy storage applications to revolutionize Bulgaria's energy landscape. Want to jump straight to the white paper? Fill out the form to download. The Current State of the Bulgarian Power Market: Why is Energy Storage More Relevant than Ever?

By the application deadline on December 5 for its RESTORE program, Bulgaria's Ministry of Energy received proposals for 151 projects for standalone energy storage units. It said they amount to almost EUR 2.55 billion, compared to EUR 581 million available in state aid, or 4.3 times more.

Bulgaria's energy storage tender is open to all technologies, but most projects are likely to have proposed lithium-ion battery energy storage systems (BESS) and Malinov mentioned battery projects in his comment. The scheme aims to support standalone projects that will help integrate renewable energy in Bulgaria, and each project can receive ...

Following a three-month delay, the Ministry of Energy of Bulgaria combined five planned procedures for grants for energy storage facilities into three and launched calls for two of them. The aim is to support the ...
