

Does the United States support energy transactions in Burkina Faso?

In addition, various firms have received U.S. Embassy support to move transactions forward. The page below gives an overview of the energy sector in Burkina Faso, and lists Power Africa's financially closed transactions in the country, some of which are already online and generating critical electricity supply for the people of Burkina Faso.

Does Burkina Faso have a solar power plant?

In 2017, Burkina Faso inaugurated the Zagtouli solar power plant with support from the European Union and the French Development Agency (AFD). Issues include utility creditworthiness, and limited experience addressing IPPs and off-grid populations.

How much does electricity cost in Burkina Faso?

Burkina Faso currently has some of the most expensive electricity in the region, with cost of production at \$0.22-0.25 USD/kWh. The Government of Burkina Faso (GOBF) has set forth a bold national plan and has taken steps to introduce legislation to encourage private-sector investment and to liberalize electricity generation and distribution.

Is Burkina Faso importing energy from Cote d'Ivoire?

Energy needs in Burkina Faso are growing at a 13% annualized rate, and the country is currently importing energy from Cote d'Ivoire. The plant was built by Cegelec, and funded by donations from the European Union and France's development agency, permitting \$0.084 per kilowatt-hour, which is considerable cheaper than thermal production.

A whole-house generator, or standby generator, functions by providing automatic backup power to an entire home during power outages. It's integrated into your home's electrical system and usually runs on natural gas or propane. When the generator detects a power disruption, it activates automatically.

The diesel generators market in Burkina Faso is hindered by the high cost of importing diesel generators and
 the limited availability of advanced generator technologies. The market also faces challenges related to the
 lack of local manufacturing and assembly facilities, which drives up costs and limits supply.
