

What is Newton energy solutions?

Newton Energy Solutions (NES) offers an innovative solution for energy storage based on heat. The first product - NESTore - provides warmth and comfort to the home and reduces peak demand hence directly reducing the cost of energy.

Does Burkina Faso have energy issues?

In Burkina Faso's Poverty Reduction Strategy Paper (PRSP) there is no specific mention of energy or environment issues. The current version (2009-2011) has chapters on "reduction of pollution" and on "sustainable management of natural resources" without reference to energy issues.

Are there stoves in Burkina Faso?

There are a number of improved stoves which were introduced in Burkina Faso at the end of the 1970s and the beginning of the 1980s. They take these aspects into account, and cost today around 50 000 CFA francs, they were not really to be found or used in the households at the onset of FAFASO.

This renewables readiness assessment (RRA) for Burkina Faso has been developed in collaboration with the Ministry of Energy, Mines and Quarries. It identifies several drivers for the country to accelerate its energy ...

Sub-Saharan countries like Burkina Faso constantly face challenges in adoption and diffusion of new energy-efficient solutions especially those with high initial costs. This research is focused on passive techniques which can be widespread in Burkina-Faso where appropriated solutions need to be adapted to the local economic context.
