- All zappi's and eddi's need a direct link to the hub We are working on Ethernet adapters for the zappi and eddi which can be used if it's impossible to establish a reliable wireless connection due to distance, thick walls, foil backed plasterboard, mirrors, large metal objects such as cookers and fridges, tanks of water etc or interference

Hi, Have been using the Eddi flawlessly over the last few months. Noticed on last Friday that the water was cold at around 2pm, (full sunshine weath ... myenergi_Dr_Chris. 7,852 6,258. Grand Master. myenergi_Dr_Chris. 7,852 6,258. Post Sep 23, 2019 #2 2019-09-23T13:44+00:00. That looks like a thermostat problem.

Other eddi myenergi products are shown with details of how they integrate with the grid connection and the microgeneration system. Page . 6 of 33. Page 7 of 33. 5. Box Contents o 1 x eddi unit with mounting bracket attached o 1 x Current transformer with 5m cable (Grid CT sensor)

In my experience you will get temperature stratification with the Eddi depending on how much solar energy you can divert; in my system a battery gets priority until charged and the Eddi gets bursts of low energy and then finally all excess, the result is water at the top of the tank climbs way above the thermostat value until the water ...

You need an Amazon account to login to the website and you need a MyEnergi account with a Zappi or Eddi configured. How do I set it up? After logging in, retrieve your MyEnergi Hub serial number and API key from the MyEnergi website, then enter this information into the myzappi website. This video can help you get your API key and serial number:

My Eddi (200 litre tank) consumes just 1KWh per day, what water temperature is your thermostat set to. Beware of turning it too much as you'll get near boiling water. Nearly 3kWh seems reasonable energy input to me, it's the same as running the immersion for 1-hour before the Eddi was used.

I love the myenergi products so the eddi looks great but this leads me to some questions, especially around payback. Reading this thread ([eddi-a-year-on-the-savings-t4159.html](#)) it looks like the eddi could have a very long payback period but from my calculations above it looks like the eddi could have a very short payback. I am therefore ...

Eddi 3 Phase Energy Installation Manual. Collections are not permitted due to health & safety regulations. Myenergi Eddi 3 Phase Microgeneration Energy Diverter The My Energi Eddi is a ...

Zodra uw myenergi eddi is geïnstalleerd, registreert u uw individuele producten om volledig te profiteren van de 3 jaar garantieondersteuning. Bestel eddi nu. Subscription Form. Voer uw e-mailadres in om uw inbox op te laden met onze nieuwsbrief!.

Hope someone can help wiith my Eddi/Homeassistant Integration? Homeassistant is up and running and also the myenergi integration. I can manually switch the eddi off/on from within homeassistant. But I cant see how to set up an automation. What i want to achieve, is to switch off Eddi from say 4pm to 7pm - so that all spare electricity is exported.

HI Folks. We have two elements in our hot-water tank - a "basin" one (short) and a "bath" one (longer) - fitted in the top of the tank. Both are wired up to the eddi - as tank1 and tank2 respectively... - don't know why the installers did that, because, per-solar, we only ever used the long "bath" element
