Cairo Solar | 3,225 ?? ?????????? ??? LinkedIn. Since 2014, Cairo Solar co. succeeded in designing, procuring and installing 43 projects for a total of about 1.5MWp solar plants, with a 90% corporate re-order rate. Currently Cairo solar is providing its services successfully to different types of customers such as corporate entities, government entities and home owners.

The youngest of the bunch, Cairo Solar has only been around since 2014, and is a solar engineering, procurement, construction and financing company that helps minimise the cost of solar system installments. Since its founding, it has contributed to the installation of over 55 solar projects.

In Cyprus, a solar system typically pays for itself within 2 to 5 years, depending on the size of the system, electricity consumption, and government subsidies. Thanks to the high number of sunshine hours and the ability to save up to 80% on energy costs, the profitability is particularly high. Additional subsidies, such as up to EUR1,500 for 4 ...
