

Who is Canadian Solar?

Over the past 23 years, Canadian Solar has successfully delivered over 125 GW of premium quality, solar photovoltaic modules to customers. Since entering the project development business in 2010, Canadian Solar has developed, built, and connected over 10 GWp of solar power projects and 3.3 GWh of battery energy storage projects across the world.

Is Canadian Solar a bankable company?

Canadian Solar is one of the most bankable companies in the solar and renewable energy industry, having been publicly listed on the NASDAQ since 2006. Over the past 23 years, Canadian Solar has successfully delivered over 125 GW of premium quality, solar photovoltaic modules to customers.

Where are Canadian solar modules made?

That said, the vast majority of Canadian's module manufacturing is done in China. In addition to the Chinese and Canadian facilities, Canadian Solar also manufactures various solar materials in Indonesia, Vietnam, and Brazil. Canadian Solar was founded in 2001 by Dr. Shawn Qu, making it a relatively old solar manufacturer.

Is Canadian Solar a vertically integrated company?

The company is partially vertically integrated, meaning they not only make solar panels (also called 'modules'), but also produce some of the raw silicon ingots, wafers, and solar cells that go into those panels. Here's a video of SolarReviews CEO Andy Sedy discussing his thoughts on Canadian Solar:

Is Canadian Solar a good brand?

As one of the top solar panel brands, Canadian Solar has a long history of success and big plans for the future. Canadian Solar offers some excellent solar panels at very good prices. The company's products compare favorably on performance with other top brands, and they stand behind them with excellent warranties.

How many employees does Canadian Solar have?

It has more than 18,500 dedicated employees to strive each day to make this mission a reality. Canadian Solar has two business segments: CSI Solar and Recurrent Energy (formerly Global Energy). Canadian Solar's PV panel modules have very strong attractiveness in terms of their cheap price.
