To cement our position as the leading company in the provision of independent power supply, using the fuel of tomorrow to deliver our work of today, whilst being committed to providing competitive and stable energy to our customers taking into cognizance the safety of our environment, the welfare of our employees and our responsibilities to different stakeholders.

The modularity allows to increase the power output step-by-step from 3 to 12 kVA. Fully equipped, this rack system can reach the power density of 12 kVA in only 2U high offering the highest one in the market. The reliability of such a system, based on CE+T Power modular inverters leading technology, is incomparable with small power UPS.
