

Is Chile a good country?

Chile is one of South America's most stable and prosperous nations. It has been relatively free of the coups and arbitrary governments that have blighted the continent.

What is Chile known for?

The relatively small Central Valley, which includes Santiago, dominates the country in terms of population and agricultural resources. This area is also the historical center from which Chile expanded in the late 19th century when it integrated the northern and southern regions.

Is Chile a developing country?

Chile is a developing country with a high-income economy and is one of the most economically and socially stable nations in South America. [17 ]Chile also performs well in the region in terms of sustainability of the state and democratic development. [18 ]

Could Chile benefit from a favorable age structure?

Chile is in the advanced stages of demographic transition and is becoming an aging society - with fertility below replacement level, low mortality rates, and life expectancy on par with developed countries. Nevertheless, with its dependency ratio nearing its low point, Chile could benefit from its favorable age structure.

What is the official language of Chile?

The country's official language is Spanish. Chili peppers, first cultivated by Native Americans from other Latin American countries and the United States, did not come from this country, although it has a similar name. Chile's currency is the Chilean peso.

Is Chile a democratic country?

Chile has also had a history of retaining representative democratic government. Except for a military junta that held power from September 1973 to March 1990, the country has been relatively free of the coups and constitutional suspensions common to many of its neighbours.

The territory of Chile has been populated since at least 3000 BC. By the 16th century, Spanish invaders began to raid the region of present-day Chile, and the territory was a colony from 1540 to 1818, when it gained independence from Spain.The country"s economic development was successively marked by the export of first agricultural produce, then saltpeter and later copper.

Chile"s 2017 census reported a population of 17,574,003 people. Its rate of population growth has been decreasing since 1990, due to a declining birth rate. [6] By 2050 the population is expected to reach approximately 20.2 million people, at which point it is projected to either stagnate or begin declining. [7] About 85% of the country"s population lives in urban areas, with 40% living ...

Chileans (Spanish: Chilenos, pronounced [tʰi'lenos]) are an ethnic group and nation native to the country of Chile and its neighboring insular territories.Most Chileans share a common culture, history, ancestry and language.The overwhelming majority of Chileans are the product of varying degrees of admixture between European ethnic groups (predominantly Basques and ...
