Using second hand Trina Solar 310w panels in a series of six mounted on the lean-to roof. This system is intended to power my greenhouse fans, heat mats, and workshop needs. Tomorrow is my first power up. Fingers crossed. The batteries are charged and waiting to be hooked up, but the panels won't be mounted to the lean-to roof until January.

The Turks and Caicos Islands Government (TCIG) has signed a contract with Green Revolution for the installation of five solar photovoltaic systems under the EU Funded project titled, "Transitioning towards Green ...

Providenciales, Turks and Caicos Islands (Thursday, June 8, 2023) - FortisTCI will invest \$8 million to install the country's first solar plus battery microgrids to power 30% of the electricity supply on North and Middle Caicos and 91% of the electricity supply on Salt Cay in 2024. The microgrids represent the Company's single largest green energy investment to date.
