

Where are Proterra batteries made?

Our batteries are designed from the cell level up for commercial and industrial usage and have industry-leading energy density, a flexible design, and ruggedized commercial-grade housing. Designed in Proterra's Silicon Valley and manufactured in Greer, South Carolina, by the best minds in battery engineering.

Does Proterra offer a battery leasing program?

Proterra offers a battery leasing program where customers pay for the price of the battery over time rather than upfront when the bus is purchased. The company says that many customers can make lease payments using their operational savings from reduced fuel and maintenance costs.

Is Proterra a public company?

Proterra Inc. was an American electric vehicle and powertrain manufacturer based in Burlingame, California. The company designed and manufactured battery electric transit buses, powertrain systems for other heavy-duty vehicle builders and charging systems for fleets of heavy-duty vehicles. Founded in 2004, it became a public company in June 2021.

What is a Proterra S series battery?

The Proterra S series batteries already power medium- and heavy-duty applications on the roads throughout North America. Battery packs in the S series have a width of 860 mm and can contain up to 123 kWh of energy storage per pack.

Does Proterra recycle lithium ion batteries?

Instead of sending batteries to a hazardous waste incinerator, Proterra works with top-tier recycling companies that specialize in extracting and repurposing materials inside lithium-ion automotive batteries, recovering precious metals used in Proterra batteries.

Will Altairnano batteries make Proterra a Magic Bus?

"Altairnano batteries make Proterra a magic bus". Wired. Retrieved July 12, 2018. ^ "Proterra Catalyst Platform Introduction" (PDF). Louisiana Alternative Fuels Conference & Expo. April 14, 2016. Retrieved July 13, 2018. ^ "Proterra introduces new extended range battery pack for electric transit buses; up to 180 miles". Green Car Congress.

The plant will mainly supply battery packs to SAIC Motor-CP, a local joint venture between China's largest vehicle manufacturer SAIC Motor and CP, to help strengthen its presence in the country ...

Proterra's new battery-electric transit vehicle, the Proterra ZX5, can now be equipped with 675 kWh of energy, the most energy storage of any 40-foot electric bus available in the market today.

Dive Brief: Battery and electric bus maker Proterra sold its battery business to Sweden-based Volvo for \$210 million in a deal made public on Friday.; After filing for Chapter 11 bankruptcy in August, Proterra put three business units up for sale, including the Proterra Powered segment, which manufactures batteries for medium- and heavy-duty commercial ...

"As an American technology leader, Proterra is proud to be part of LG Energy Solution's decision to bring battery cell manufacturing to the United States," said Gareth Joyce, Proterra CEO. "Today's announcement helps to further the United States' commitment to develop domestic production of EV batteries as well as Proterra's mission to power a ...

HIGH POINT, N.C. (May 20, 2024) - Daimler Truck North America (DTNA) and Proterra, a leading innovator in commercial vehicle battery technology, today announced plans to power Thomas Built Buses' next-generation, all-electric, Saf-T-Liner C2 Jouley school bus and Freightliner Custom Chassis Corporation's (FCCC) all-electric MT50e last ...
