

TAU is a critical key infrastructure asset for Rarotonga and the wider Cook Islands. The primary function of Te Aponga Uira (TAU) is the provision of electricity to the people of Rarotonga in a reliable, safe and ...

Check out this incredible video from Bess, a recent student who attended our course in the Cook Islands! "I would 100% recommend anyone to the Future Leaders programme. It is the most unique and...

Streamlining Residential BESS Sales: Selling BESS units directly to homeowners is crucial for reducing costs and enhancing customer relations. Eliminating middlemen in the residential sector improves efficiency and strengthens direct engagement with customers, making it a key approach for industry success.

¿Qué es un BESS? Un BESS (o Battery Energy Storage System, en inglés) es un sistema de almacenamiento de energía (ESS) que captura la energía de varias fuentes y la almacena en baterías recargables para su uso en el futuro. En caso de ser necesario, la energía electroquímica se descarga de la batería y se suministra a hogares, vehículos, instalaciones ...

MY COOK ISLANDS "The humbleness of the people, the relaxed way of life here is something to truly appreciate and admire! This Island is a true magical untouched little island gem in the South Pacific. Definitely worth a visit !" Mitiaro through the eyes of a visitor.

1.1 Cook Islands The Cook Islands is located in the South Pacific Ocean northeast of New Zealand, covering a land area of 240 km²; and a population of 19,000. The archipelago is comprised of 15 islands, 12 of which are inhabited, divided into two distinct groups: the Northern Group and the Southern Group (Figure 1).
