

Who is Okapi solar?

At Okapi Solar, we are dedicated to empowering homeowners across Southeast Asia with affordable and sustainable energy solutions. Specializing in solar financing, we collaborate with trusted solar installers to offer tailored financing plans that make rooftop solar installations accessible and affordable for everyone.

Who is Okapi technologies?

Okapi Technologies was founded with the mission to make affordable residential solar energy accessible to homeowners in Malaysia and Southeast Asia. In December 2022, we launched a 10-year residential solar financing product, aligned with the NEM program, partnering with forward-thinking solar installers to promote sustainability.

How does Okapi solar financing work?

Okapi Solar's financing plans are designed specifically for landed residential properties, allowing homeowners to install solar panels with zero upfront payment and fixed monthly lease payments over a period of up to 10 years.

Does Okapi buy or lease solar panels?

Okapi buys the solar panels first, and then leases it to homeowners. Zhen Yung and Christopher, both with backgrounds in banking and engineering, share their journey of leaving the corporate world to venture into entrepreneurship.

What is Okapi leasing?

Okapi offers zero capex instalment plans for homeowners that want to install solar panels on their rooftops. Our instalment plans are tailored to ensure that you start saving from day 1. How much are the monthly payments?

What is Denmark's energy source?

More than two-thirds of Denmark's renewable energy comes from bioenergy, which is energy stored in organic material or biomass. Agriculture is big business in Denmark, and it indirectly helps provide energy too, with manure, animal fats, and straw used as the basis for biogas and liquid biofuels.

Okapi allows you to easily switch to solar without any upfront costs. Start saving on your energy bill from day one. No more waiting years to hit breakeven and finally see some savings. There's zero downpayment. All you'll need to do is pay fixed monthly payments for up to 10 years based on the size of the solar panel installation.

Okapi Technologies was founded with a single objective - to make affordable residential solar energy accessible to all homeowners in Malaysia and Southeast Asia. Launching our 10-year residential solar
