Huawei said that its microgrid solution has been "providing 1kWh of green power supply to the Red Sea project since September 2023". Saudi Arabia is relying on Huawei to provide power for its Red Sea project. As part of Saudi Arabia's Vision 2030 plan to restructure the kingdom's economy, the project aims to turn 50 islands into luxury ...

It combines all the components required for a sustainable microgrid in a single device and facilitates the generation of cost-efficient renewable energies such as solar photovoltaic (PV) and batteries. ABB further noted that its MGS100 solution can be fed on local solarpower during the day and switched to battery mode after dark.
