

What is ease?

What is EASE ? The European Association for Storage of Energy(EASE) is the voice of the energy storage community,actively promoting the use of energy storage in Europe and worldwide. energy system with respect to European energy and climate policy.

What is the European Association for storage of Energy (EASE)?

Join us EASE The European Association for Storage of Energy (EASE) is a diverse community of members that unite their efforts to promote the entire energy storage value chain, which is a fundamental link to a decarbonised energy system.

How does ease support the deployment of energy storage?

EASE supports the deployment of energy storage to support the cost-effective transition to a resilient,climate-neutral,and secure energy system. EASE,located in Brussels,is the leading member-supported association representing organisations active across the entire energy storage value chain.

What is ease intelligence?

EASE intelligence is a valuable source of information for businesses and investors interested in the energy storage sector. As a member, you will gain free access to: The European Market Monitor on Energy Storage (EMMES). Published As a member, you will automatically receive the newsletters.

Who is ASE & why is it important?

organisations active across the entire energy storage value chain. cost-effective transition to a resilient, climate neutral, and secure energy system. EASE represents more than 50 members including technology suppliers, research institutes, distribution operators, and transmission system operators.

What are ease's energy storage policy priorities?

EASE members have defined policy priorities to take energy storage to the next level in the coming years. We call on policymakers to: prioritise energy storage support across all EU Green Deal files. implementation of the 'Clean Energy for All Europeans' Package, support faster permitting, and ensure monetisation for storage services.

On 13 April 2022, Breakthrough Energy, the European Association for Storage of Energy - EASE, SolarPower Europe, and WindEurope signed an open letter calling on the European Commission to recognise energy storage's crucial role for the security of energy supply in Europe. The four organisations welcome that the REPowerEU plan presented in March rightly recognises ...
