

Who is EKT batteries?

EKT is a leading lithium battery manufacturer for solution providers, original equipment manufacturers, and end users. Our over 10 years of experience and expertise in lithium batteries means we have the experience needed to manufacture quality batteries. We back all our products with a comprehensive service guarantee.

What is Eikto's new energy power lithium battery project?

On July 10, the first phase of EIKTO's annual 12GWh new energy power lithium battery project commenced production in Jiangsu Yancheng Jianhu High-tech Zone. The project, with a total investment of 6 billion yuan, will be executed in two phases (each capable of producing 6GWh).

Are Eikto lithium batteries environmentally friendly?

EIKTO lithium batteries are made of environmentally friendly materials and do not contain harmful substances such as lead and mercury, which can reduce environmental pollution. In addition, lithium batteries have high recyclability, which helps reduce waste and resource waste.

What makes Eikto a good battery?

The EIKTO MS series uses a unique blend of lithium ions, making it the most compact, durable, and powerful battery on the market. EIKTO has been committed to improving energy efficiency and the environment for years. Our self-developed battery cell and the patented structure gave us a competitive advantage over other battery manufacturers.

What makes EKT a good battery company?

EKT has a state-of-the-art manufacturing facility and R&D center to ensure that our lithium batteries, lithium battery modules, and lithium battery systems are always of the highest quality during development, manufacturing, and testing.

Are Chinese forklift lithium batteries reliable?

Forklift lithium batteries made by reliable manufacturers tend to be highly rated. We searched these six Chinese forklift lithium battery brands online for hours. Some of China's most well-known brands are vying for a growing share of the market for lithium forklift batteries in North America and Europe.
