

HR 1234W (9AH) is specially designed for high efficient discharge application. Its characteristics are high energy density, small footprint and high discharge efficiency. It can be used for more than 260 cycles at 100% discharge in cycle service. Up to 5 years in standby service.

HR 1234W (9AH) is specially designed for high efficient discharge application. Its characteristics are high energy density, small footprint and high discharge efficiency. It can be used for more than 260 cycles at 100% discharge in cycle ...

During development projects, large attention is given to cost price, reliability and low maintenance. These aspects, combined with their long life, give micro turbines the most competitive TCO (total cost of ownership) of all small-scale CHP solutions.

22, 27 and 42U 600 x 800 Deep Cabinet with Fans & Shelves (Flat-Pack)- 4 fans- 4 adjustable feet and castors- Flat shelves- Material: seamless steel board- Good ventilation and heat dispersing- Powder coated to protect against rust, ...

Latest NANO Technology with super deep cycle design and excellent deep cycle discharge. Strong recovery ability from deep cycle discharge. 12 Year Design Life. Capacity 100AH/12VDimensions 329mm*171mm*215mmWeight 29.5kgTerminal Type M6NANO Gel Technology12 Year Design Life

Our Technicians are trained and qualified to repair various makes of UPS"s. Carry-in repairs are done at our workshop in Midrand, South Africa. Faulty units are diagnosed, repaired and then placed under strain to ensure that it will be working perfectly once leaving our workshops.

The MultiPlus II 5000VA is a powerful true sine wave inverter, a sophisticated battery charger that features adaptive charge technology and a high-speed AC transfer switch in a single compact enclosure.Unique PowerAssist Feature - The MultiPlus will prevent overload of a limited AC source. Virtually unlimited power thanks to parallel operation - Up to 6 Multis can operate in ...

HR 1221W is specially designed for high efficient discharge application. Its characteristics are high energy density, small footprint and high discharge efficiency. It can be used for more than 260 cycles at 100% discharge in cycle service. Up to 5 years in standby service.

Extended-run battery systems provide flexible runtime to critical Smart-UPS applications. NOTE: Electrilabs can Repack your existing Battery Modules/Catridges with new high performance CSB batteries for the fraction of the price. Best quality. Quick service. APC Smart-UPS RT 192V Battery Pack Includes: Installation guide, User manual Warranty 2 Years

Electrilabs focuses on UPS Service and Repairs, Electrical Infrastructure, Generator and Air Conditioning. We also Supply, Install, Commission, Repair and Service these technologies for the past 25+years.

The Fronius Primo in power categories from 3.0 to 8.2 kW perfectly completes the SnapINverter generation. This single-phase, transformerless device is the ideal inverter for private households. Its innovative SuperFlex Design provides ...

The Victron Quattro is the larger inverters in the Victron range. It has 2 x AC inputs for typical connection for grid and generator further on it has same features as the Multiplus. Model: VIC-QUATTRO-48-15000-200-100-100 Charge current house battery: 200A Operating Voltage: 48V Auxiliary output: 50A Rating: 12,000 W Power Factor: 1 AC inputs: 2 Weight: 94 kg Quattro ...

Electrilabs (Pty) Ltd. | 64 followers on LinkedIn. Electrilabs is a fully-fledged Turn-Key Solutions Provider of all forms of Backup Energy. | Electrilabs was established 20+ years ago in South Africa with our initial focus being UPS service and maintenance. Our company gradually evolved into a fully-fledged Turn-Key Solutions Provider focused on the design, integration, installation ...

Electrilabs has qualified field service and workshop engineers based in Midrand, South Africa, and also have various strategic and BEE partners throughout South Africa. The company has initially been of service to mainly the Industrial, ...

This 5KVA system makes provision for self-sufficiency with minimal need of utility power is equipped with a 100A/250VDC MPPT Victron Charge Controller and 10KW/h Sunniva Lithium batteries combined with a 5KVA Victron Power Plus II Inverter and 5KWp PV panels. It is an all-in-one package where the inverter and batteries are neatly bundled together in a rack with a ...

22, 27 and 42U 600 x 800 Deep Cabinet with Fans & Shelves (Flat-Pack)- 4 fans- 4 adjustable feet and castors- Flat shelves- Material: seamless steel board- Good ventilation and heat dispersing- Powder coated to protect against rust, oxidisation, scratches, lacquer peeling- Framework - high strength steel with a 500kg weight capacity- Side panel can be easily ...
