Elemental Energy's primary focus is on building hydrogen power systems that integrate with existing energy infrastructure to replace diesel generation as a source of back-up power. While multiple companies are offering hydrogen power solutions in developed markets, the diesel generator market is global, with significant opportunity for ...

Accelerating the transition to renewable energy is the nature of our business. We develop, own and operate renewable energy projects that meet today's most urgent economic, environmental and societal demands, enabling investors, customers, communities, and future generations access to a sustainable future, today.

As the leading independent wells expert, Elemental Energies understands what it takes to deliver complex projects across the energy mix. By applying our deep, practical experience of delivering complex international drilling programmes we provide a complete engineering solution to decommissioning, oil and gas, carbon capture, utilisation and storage (CCUS), and ...

Elemental Energy is developing the proposed High River Solar Project, a 19 megawatt (MW) solar farm to be

located near Highway 2A and Highway 543 East, just north of the Town of High River. It will occupy approximately 135 acres of private land and is situated on a reclaimed gravel quarry, directly adjacent to the High River substation ...
