The UN is promoting a diverse portfolio of innovative projects, ranging from air purification technologies to renewable energy solutions, to accelerate Serbia's green transition. These efforts have yielded tangible results, including increased renewable energy capacity by 7.9 MW, a 30 per cent reduction in primary energy consumption in public ...

Yesterday, our CEO, Milo? Coli?, participated in the action of planting a tree as a symbol of Israeli-Serbian friendship. The tree he had the honor to plant symbolizes the partnership and collaboration we share with Enlight Renewable Energy Ltd (ENLT). The Embassy of #Israel in #Serbia organized a tree planting event yesterday in the &quot;Forest of the Future,&quot; which will ...

Their expertise encompasses a wide range of solutions, including solar power plants, hybrid storage systems, solar LED lighting systems, electric vehicle charging stations, and efficient ...

After more than 30 years of dormancy, the concept of incorporating nuclear energy into Serbia's energy mix is experiencing a significant resurgence. This renewed interest is largely driven by the new Proposal for the Law on Energy, which aims to lift the 1989 ban on constructing nuclear power plants. This movement is also backed by multiple agreements ...
