The level of the framework for energy efficiency development in Eswatini is low. There is an Energy Efficiency policy adopted in 2019 with specific energy efficiency targets at the national level set for the power sector. The National Energy Efficiency Strategy and Action Plan, adopted in 2020, targets a reduction in annual electricity ...

The International Atomic Energy Agency (IAEA) is assisting the Kingdom of Eswatini in its sustainable development agenda in the healthcare, agriculture and nuclear energy sectors. IAEA experts are working with their counterparts in Eswatini to design a national programme for the 2025-2026 technical cooperation (TC) cycle.

To ensure the long-term scale-up of sustainable energy across Eswatini, it is essential to nurture a generation capable of leading the country's sustainable future. The renewable energy sector can offer a significant number of jobs for young people. This is a unique opportunity in a country where over 70 percent of the population is below the ...
