The European Investment Bank and Housing Finance Bank of Uganda partnership, a EUR25 million EIB loan focusing on supporting private sector entities, especially SMEs. With a gender focus, at least half of the funds will benefit businesses owned or run by women or those serving women.

Europe plans 1TWh-plus of lithium-ion gigafactory capacity, but how much will go to ESS? Numerous projects to build lithium-ion gigafactories across Europe are underway, primarily driven by EU-wide mandates that incentivise domestically manufactured batteries in electric vehicles (EVs) built on the continent.

39 countries have participated in at least one round since 2002/03; 31 countries participated in ESS Round 10 (2020-22). European countries are welcome to join the ESS, even if they have previously not taken part or have been absent for some time. The inclusion of new Members enables ESS ERIC to increase the body of comparative data available ...

Image: ESS Inc / LEAG / Intersolar Europe. If it goes ahead it will be by far the company's largest deployment to-date. It is fairly early on in its path to large-scale commercialisation, with just under US\$1 million in revenue last year and recent projects in the kWh range. It finished 2022 with a production capacity of 800MWh.
