

Will Pohnpei get a 5 MW solar power farm?

PEPP's proposed \$20 million 5 MW solar power farm for Pohnpei would help to establish the Federated States of Micronesia as a world trendsetter in the application of renewable energy. It would give the FSM greater energy independence.

What happened to Evergreen Solar?

Evergreen Solar, Inc. was "a fully integrated manufacturer of solar panels producing wafers, cells and panels." On August 15, 2011, the company filed for Chapter 11 reorganization with the intent of selling its assets. Evergreen Solar was founded in 1994 and until bankruptcy traded on the NASDAQ exchange.

How much does a solar project cost in Pohnpei?

After just 15 years, the entire project, capitalized at over \$20 million, will transfer, without cost, to the State of Pohnpei, providing it with many more years of free renewable energy using the best solar technology. The solar project in Pohnpei is a concept that can be replicated by other Small Island Developing States.

Where is evergreen based?

Evergreen is shifting production to China where it has a joint venture. The company received \$21 million from Massachusetts, covering part of the cost of the Devens factory. Evergreen operated out of Marlborough, Massachusetts, USA and in 2007 announced plans to expand annual production from 17MW to 100MW.

How many megawatts does evergreen produce a year?

Evergreen's factory in Devens, MA opened in mid-2008 and expected to be producing at a rate of 80 megawatts per year by early 2009. A second phase was scheduled to begin ramping in early 2009 to produce an additional 80 megawatts per year. CEO Richard Feldt had said the company was eyeing expansion in Asia as well.

Is evergreen going out of business?

The company announced plans to close its main American factory and lay off the 800 workers there by March 2011. Evergreen is shifting production to China where it has a joint venture. The company received \$21 million from Massachusetts, covering part of the cost of the Devens factory.
