

What is the largest solar power plant in Montenegro?

The project launched by the firm based in Podgorica is therefore the largest in Montenegro in the sector and also one of the biggest ones in the Balkans. The peak or nameplate capacity of a solar power plant is the maximum production in terms of direct current and it is usually 20% or so bigger than the grid connection capacity.

Where is Res Montenegro planning a solar project?

A section would be placed in the cadastral municipality of Lastva, which RES Montenegro Group is also eyeing for its own project. Sunrise Europe, based in the seaside town of Kotor, intends to set up a solar park with a peak capacity of 220 MW in Zavnik while the company Obnovljivi izvori energije is preparing to build a 225 MW facility in Cetinje.

Did Montenegro lower the value-added tax for solar panels?

Montenegro recently lowered the value-added tax for solar panels. EPCG has a program called Solari for rooftop solar panels for households and companies. RES Montenegro Group got the urban planning and technical requirements for a photovoltaic system with a connection capacity of up to 506 MW.

How many MW will EPCG & UGT renewables have?

EPCG and UGT Renewables from the United States agreed in November to join forces in the development of renewable energy and storage projects. The Briska gora and Velje brdo projects have 50 MW each planned for the first phase. The procedures have been repeatedly delayed. They could reach 262 MW and 300 MW, respectively.
