

What is Oscal PowerMax 3600 power station?

The OSCAL PowerMax 3600 Power Station is an upcoming home backup power solution that offers exceptional performance and reliability. With a capacity of 3600 Wh, this power station is designed to provide a reliable source of electricity during power outages or in off-grid situations.

Does the Oscal PowerMax 3600 have Wi-Fi?

This feature is ideal for home emergencies, network equipment, and outdoor tasks that require an uninterrupted power supply. The OSCAL PowerMax 3600 comes with a convenient smartphone application called "OSCAL," which allows you to effortlessly pair and control the power station through Wi-Fi or Bluetooth.

How long does it take to charge Oscal PowerMax 3600?

Featuring dual charging capabilities via solar panels and AC power, the OSCAL PowerMax 3600 offers flexibility and convenience. It can achieve a full charge in just 1.2 hours when using solar panels and an alternate 1.96 hours when using AC charging, EV stations charging, or generators charging.

Can Oscal PowerMax 3600 damage my device?

It is crucial to exercise due diligence, as we cannot be held responsible for any damage to your device due to overconfidence in its built quality. The Oscal PowerMax 3600 (also known as the Blackview Oscal PowerMax 3600) is a portable power station designed for demanding off-grid use.

Is the PowerMax 3600 portable?

While larger than some portable stations, the PowerMax 3600 remains relatively portable with its included industrial wheels and extendable handle. The PowerMax 3600 offers multiple charging methods with impressive speeds: AC input up to 2000W (full charge in 2 hours), solar input up to 1600W (depending on sunlight), and car input up to 120W.
