

Does Finland have solar power?

There is plenty of solar energy available in Finland, and solar power is predicted to be one of the lowest-cost electricity production methods in the coming years.

Where should I buy solar panels?

We recommend acquiring your panels from a reliable company that is sure to remain in business for the entire lifecycle of your solar power system. A good salesperson will answer any use-phase questions you may have, handle your warranty issues, if necessary, and enable you to expand your system and add new products to it.

How efficient are Solaria powerxt modules?

Solaria PowerXT modules achieve up to 20% efficiency; conventional modules achieve 15% - 17% efficiency. Solaria PowerXT modules are one of the highest power modules available. Solaria PowerXT modules produce more power per square meter area. This reduces installation costs due to fewer balance of system components.
