At the heart of Nelinor's breakthrough technologies lies our flagship product, the Grid Battery. This groundbreaking solution is revolutionizing the energy landscape by allowing users to optimize their energy consumption, reduce their utility bills, and actively contribute to the reduction of carbon emissions.

Nelinor incorporates machine learning AI into the grid battery system. Unlike traditional batteries that rely on basic manual principles of charging during low-price hours, Nelinor's AI technology analyses real-time electricity spot prices and automatically charges the battery when the prices are low.
