

Is M-Kopa launching a pilot operation in South Africa?

In a strategic expansion move, M-KOPA, renowned for pioneering the pay-as-you-go model for solar panels and smartphones in East Africa, is set to embark on its pilot operations in South Africa.

Why is M-Kopa targeting South Africa's mass market?

M-KOPA is targeting South Africa's mass market as it enters the country to offer its smart products to low-income households in Soweto.

How many customers does M-Kopa have in South Africa?

Last year, Jesse Moore, M-KOPA CEO and Co-founder said the firm would expand to more markets across Africa and scale to over 10 million customers in the next few years. South Africa thus represents M-KOPA's fourth-largest market, following Kenya, Nigeria and Ghana, where the company has enjoyed relative success with a diverse range of consumers.

Can M-Kopa solve South Africa's problems?

Tech analyst Martin Macharia highlights the synchronicity between M-KOPA's innovative solutions and South Africa's challenges, such as frequent power outages and a sizable population lacking regular access to essential amenities.

Where is M-Kopa based?

M-Kopa expanded from its east African base to Nigeria in 2021 and has more recently started operations in Ghana. It is testing the market in South Africa and also running pilot projects to finance electric motorbikes as part of a new e-mobility strategy.

What products does M-Kopa offer?

M-KOPA's products include smartphones, electric motorcycles and solar power systems, which customers can pay for in small instalments over time, using their mobile phones. The products are embedded with credit through a smart digital connection, giving customers instant ownership and access to essential services.
