

Will a solar power plant save money in Chad?

The solar photovoltaic plant at Djermaya, 30km north of N'Djamena, the capital, "will be the first utility-scale renewable energy project and will be the first privately owned, financed and managed power plant in Chad. It will generate significant savings for the country," Pacquement explains.

Does Chad have a solar plant?

In Chad only 1 in 20 people have electricity. But the Central African country has lots of sun. A UK company is developing the first solar plant in one of the world's poorest places. Robert Pacquement and the Djermaya Solar development team do not shy away from a challenge.

Can a UK company develop a solar plant in Chad?

A UK company is developing the first solar plant in one of the world's poorest places. Robert Pacquement and the Djermaya Solar development team do not shy away from a challenge. His Djermaya Solar development team has worked with Chad's government for the past three years to support an ambitious solar project. It is vital work.
