

What's new at Sunlight's Xanthi battery plant?

Specialist battery company Sunlight, a member of Olympia Group, will significantly increase manufacturing capacity and create new jobs at its state-of-the-art plant in Xanthi, northern Greece, following a EUR25 million, 10-year loan from the European Investment Bank (EIB) which was confirmed earlier in Athens today.

How much money does Sunlight get for a lithium-ion battery project?

Image: SUNLIGHT. A EUR105 million (US\$127.6 million) push to develop low-cost, environmentally-friendly lithium-ion battery technology by Sunlight, a designer and manufacturer of batteries headquartered in Greece, will receive EUR49.9 million in grant funding.

What will Sunlight's lithium battery technology be used for?

A company spokesperson told Energy-Storage.news today that Sunlight wants the lithium battery technologies it develops to play a key role in areas including automated guided vehicles, electric buses and shipping, as well as in "smart storage systems for renewable energy sources".

Will Hive Energy build a green power project in Greece?

This is not the only green power project Hive Energy is looking to build in Greece. pv magazine learned that the company has at least 250 MW of additional PV capacity under its portfolio in the country that has been labeled as a strategic investment by the same government committee in the past. These projects are not yet built, however.

How much money is being invested in lithium-ion batteries?

An additional EUR20m is being invested in the production of lithium-ion batteries, with the installation of three highly automated assembly lines for lithium modules and complete lithium battery systems, as well as one assembly line for prototyping and R&D purposes.

Is a new hydrogen project a 'strategic investment' for Greece?

Pictured is a project by the company in Spain. Greece's Inter-ministerial Committee, chaired by the Minister of Development and Investments and attended by several other ministers across the cabinet, agreed on Thursday to grant a new hydrogen project the so-called status of a "strategic investment" for the country.

The solar battery's design is perfect for homes and businesses and it can be expanded by connecting in parallel with extra battery packs. LiFePO4 Lithium Battery 15 kwh Product Features: The LiFePO4 Lithium Battery 15 kwh is engineered to maximize residential and commercial solar energy efficiency. The solar battery offers a 48V high-energy ...

A lithium-ion solar battery (Li+), Li-ion battery, "rocking-chair battery" or "swing battery" is the most popular rechargeable battery type used today. The term "rocking-chair battery" or "swing battery" is a nickname for lithium-ion batteries that reflects the back-and-forth movement of lithium ions between the electrodes during charging and discharging, similar to ...

Sunlight's investment and expansion plans follow the implementation of innovative and technology-forward concepts in the company's dual production of lead-acid and lithium-ion batteries in the motive and energy ...
