Most of our recommended solar panels come with at least 25 year warranty, some with 30 year, and even 35 year warranty. Bali Solar is from Bali.

Do solar panels work in Bali?

By using solar panels in Bali, Lombok, and the islands east Indonesia you will benefit from a great sun exposure year-round, with some areas better than others. On average, 1kW of solar PV (photovoltaic) system in Bali produces 4.2 kW-hours worth of electricity per day, year-round on average.

How much electricity does a Bali solar panel generate?

A typical Bali solar panel can generate up to 200 watt-hours of electricity in full sun. If we take an average of 4.5 hours of full sunlight in a day, this gives us 900 watt-hours each day from just one panel surya Bali. Why Bali Solar Panels?

Are solar panels a good investment in Indonesia?

Unlike years ago, solar panels and rooftop PV systems in Bali, Lombok, and other areas in Indonesia, are now quite affordable and make great financial sense.

How much does a solar system installation cost in Bali?

For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed. This price typically includes solar panels, inverter, and everything else you need to get a working on-grid solar system installation. Additional costs that may occur include:
