The solar energy system provides power to your home during the day and charges the batteries. Excess energy is exported to the utility grid. The utility will credit you for every kilowatt-hour exported to the grid. Why would I want battery storage with my solar energy system? Battery storage is the missing piece to the solar energy puzzle.

CleanCapital is a commercial asset owner focused on accelerating the energy transition through strategic investments in middle-market solar and energy storage. It has invested more than \$900 million to date in projects and companies that align with that mission. In April, the company announced a \$300 million commitment from Manulife.
