

HiQ Solar, Inc. Page 1 of 7 20 Common Mistakes Installing PV Systems 21 December 2015, v1.1
Introduction Even the most experienced professionals make mistakes, and PV systems present many opportunities for errors. In this paper we list some of the more common issues we've seen or heard about often enough to be worth mentioning.

HiQ Solar, Inc. Page 3 of 8 C) HiQ 480V, Lower Stacking Figure 3: Layout C, using 7x 480V TrueString inverters Adding an additional inverter increases costs slightly but reduces the stacking ratio to 1.2. The exact same number of modules has been maintained through the ability to have different lengths for each string.

IMPORTANT SAFETY INSTRUCTIONS - Please read SAVE THESE INSTRUCTIONS ...

HiQ Solar Limited Warranty Page 2 of 3 claim to HiQ Solar during the applicable warranty period and no later than thirty (30) days after discovering the breach of warranty. The Registered Owner must comply with the Return Policy below. Upon HiQ Solar's request, the Registered Owner must allow HiQ Solar to inspect its installation of

HiQ Solar, Inc. Page 1 of 2 HiQ Solar AC Splice Installation Instructions Version 1.07 This guide refers to correct installation of ACSPL-60. Warnings o This product must be installed in compliance with the NFPA National Electrical Code o All 5 wires of each circuit (L1, L2, L3, Neutral, Ground) must be connected

HiQ Solar, Inc. December 1, 17 TrueString(TM) Inverter MODBUS Map Page 3 of 12 Introduction HiQ Solar inverters may be ordered with an optional RS485 port. The port is electrically isolated and "floating" with respect to the inverter and ground. The port provides 2-wire, half-duplex communications based on the

HiQ Solar TrueString Inverters Installer Benefits What are they? o 8 kW, 3-phase 480V string inverter, and 5.75 kW, 3-phase 208V inverter models o Non-isolated inverter for use with ungrounded DC systems o Independent strings, each with their own MPPT, AFCI detection and monitoring o 1,000 and 600V dc compatible

I wholeheartedly recommend Solar HiQ for anyone considering solar panel installation. Their professionalism, expertise, and commitment to customer satisfaction make them a standout choice in the solar industry. I am grateful ...

HiQ Solar, Inc. Page 6 of 6 3-phase String on a Cradle HiQ TrueString mounted under the array 5. Reliability LCDs, fans etc. require maintenance and regular replacement. Often these inverters use electrolytic capacitors.

Sits in full sun. Not being used as originally intended NEMA6, no electrolytics, no display, no fans. Maintenance-free. Robust,

HiQ Solar, Inc. Page 2 of 9 We'll take a brief look at the issues with arc detection, and the progress being made in changing test methods to improve the situation. We will also look at how HiQ's TrueString inverters are uniquely engineered ...

HALT Test on HiQ Solar TS480-8k TrueString Inverter Prepared for: HiQ Solar, Inc. 2030 Duane Avenue, Suite 101 Santa Clara, CA 95054 Phone (408) 970-9580 . Test Report Number 2755 Reliant Labs, Inc. 925 Thompson Place o Sunnyvale, California o 94085 Phone 408.737.7500 o Fax 408.850.1852 o reliantlabs ...

HiQ Solar Communication Gateway GW-A Specifications While HiQ Solar inverters can operate without one, a wealth of monitoring and control becomes available when a HiQ Communications Gateway is added to the system. It communicates with local inverters over the power line by being plugged into one phase, and uses

While Reliable Power solar inverter can operate without one, a wealth of monitoring and control becomes available when a Reliable Power communications Gateway is added to the system. It communicates with local inverters over the power line by being plugged into one phase and uses a proprietary communication method that is robust and reliable.

HiQ Solar TrueString 480V Inverter TS480-8k Specifications Features o Rugged 3-phase 480V plug & play system o Small and light (hand holdable, 24 lb.) o Non-isolated inverter for use with ungrounded DC systems o Peak 98.6% efficiency, CEC efficiency of 98% o 200-850V MPP voltage range for 600V and 1,000V systems o 8 kW AC

Acquisition of HiQ Solar, Inc. by Reliable Power, Inc. Posted on: 1 July, 2020. Milpitas, California, July 1, 2020 -- Meritronics, Inc. a leading global provider of electronics Manufacturing announces the assets based acquisition of HiQ Solar, Inc. on May 30, 2020.

permission of HiQ Solar Inc. HiQ Solar makes no representations, expressed or implied, with respect to this documentation or to the equipment/software described herein, including any implied warranties of use or applicability for particular purposes. HiQ Solar is not liable for any incidental or indirect damages under any circumstances.
